THE CANVASS.

No canvass of the Republicans in Pennsylvania has never opened more auspiciously than the present. The mass meetings, of which a good many have been held, are unprecedentedly full in numbers and overflowing in enthusiasm. The loyal people have evidently resolved that they will not be cheated out of the proper results of the toils endured. Assailed by the President in the persons of their Constitutional representatives, as untrue to the country, because they will not tamely bow to his dictation, they have aroused them selves to the task of attesting their primal authority in the Government. They mean to be heard and respected. The Republicans whom this recreant President has denounced as traitors, because they would not become retainers at the White House, they will send back crowned with popular approval and clothed with fresh authority; and they will take good care that the representatives, either in the Senate or House, who have betrayed their trusts, forfeited their pledges, and dishonored their manhood, are left at home.

Let no Republican be disheartened. The camp-fires of the faithful, all around the horizon flash up to the zenith.

RADICALISM AND CONSERVATISM are said, just now, to stand in sharp antagonism to each other. The former is held up as an object of intense detestation—the latter of unbounded admiration. The one is represented as a raging monster, with open mouth and terrible claws, eager to devour all that comes in its path—the other as a meek-eyed angel of peace, wearing olive branches to calm the turbulance of the people. What truth or falsity is there in these representations?

Do the Radicals insist upon boundless slaughter and sweeping proscriptions? Doubtless some individuals demand that such expiations should be made as will "magnify the law and make it honorable," rendering it a terror to evil doers. But the seare not clamoring for holocausts of victims. All they require is that a very few of the leading spirits of the revolt shall pay the forfeit of their crimes; that the doctrine of the "enforcement of the laws" shall be exemplified in their persons. But other radicals, the equals of these in numbers and influence, only ask that the rebels shall properly recognize and respect the just rights of all their fellow citizens as the s[illegible]ondition of an act of oblivion, [illegible]mands are condensed with the [illegible]niversal amnesty—impartial suffr[illegible]as a compromise between these extreme points Congress has agreed, in the most authoritative form, to reconstruction, by simply depriving the leading rebels of power in the Federal government, and offering the inducement of increased representation to each State that shall do exact justice to all classes of its population. Never was a more magnanimous and beneficent basis of adjustment offered by a victorious nation to vanquished rebels. The blood of no victim is required. Vast forfeitures, deliberately incurred, are relinquished. Only those points are guarded which seem indispensable to the repose of the nation and to the security of loyal men.

What do the Conservatives propose? They demand that there shall be no enforcement of the laws. That nothing shall be done to brand law-breaking as an offence, and wholesome obedience as a virtue. They insist that the authority in the eleven revolted States shall be put back into the hands of the men who plotted the rebellion and executed it. That no conditions for the protection of the loyal minorities in those States shall be expected, and that the surest guarantee for the future is a coalition which shall restore the national government into the hands of Northern Copperheads and Southern insurrectionists. This is not an exaggeration, but sober reality.

It remains for the masses who sustained the government throughout the war, to prove that they are equal to the present trial, by thwarting this conspiracy for a counter-revolution.

WISCONSIN.—The party of the administration hoped that through the deception of Senator Doolittle and Governor Randall, from their professed Republican principles, they would be able to do something in Wisconsin; but information from all parts of the State is to the effect that the loyal people who supported President Lincoln's administration, were never more thoroughly united or more in earnest than now. Their indignation has been stirred to its lowest depths, and there is none of that apathy which existed last fall. The people are aching for a chance to express in a tangible shape their approval of the course of Congress and their condemnation of that of the President, and they will do it by giving a much larger Union majority this fall than last, by keeping their strength in Congress good, and electing a Radical Legislature which will return Timothy O. Howe to his place in the Senate with such an endorsement as public men seldom receive.

GEN. CUSTER has received the reward of his compliance. He has been made a Colonel in the regular army. Thrift has followed fawning. He repudiated his sworn sentiments before the Congressional Committee, and gets a coveted promotion as a reward. His case is designed as a warning to officers who refuse to traffic in their principles, and an invitation to such as are open to arrangements.

THE CONSERVATISM that duped General GRANT into an unconscious seeming endorsement of the Philadelphia Convention, is characteristic of the men reputed to be concerned in the fraud and of the Policy it was designed to serve, but was an expedient gentlemen of honor would never have stooped to. It was fitting the sinister genius of the President and Secretary of State.

SEVERAL Conservatives of Pennsylvania have been to Washington begging permission to levy contributions on government employees at Philadelphia, in aid of the election of CLYMER, who opposed the defence of the Union, over GEARY, who made a splendid record in its defence. Conservatism selects the disloyal side by instinct.

WHEN the Conservatives talk of the necessity and excellence of conciliation, ask them to remember Memphis and New Orleans. Conservative conciliation has all the fierceness of a starved tiger, when it gets the upper hand.

THE Conservatives confess that Clymer is beaten unless the government furnishes more money to help his cause. They may as well save their powder. Clymer is the deadest of all ducks, and money cannot save him.

DEAN RICHMOND.—DEAN RICHMOND, whose death is reported in the telegraphic columns, was at the time of his decease President of the New York Central Railroad Company, a post which he has filled with honor to himself, and profit to the Company. For many years he has been a leading Democratic politician, and his death ismainly attributed to his exertions at the recent Philadelphia Convention. The principal railroad offices, and railroad carriages and engines in New York are draped in mourning in honor to his memory. He was in early life a poor boy, and at one time earned his subsistance as driver on a canal, but by perseverence and industry he rose until he became possessed of great wealth. His income for last year is reported at one hundred and eight thousand seven hundred and twenty-one dollars, ($108,721.)

THE REMOVAL of General SHERIDAN from his command at New Orleans may be taken as proof that no patriotism, however conspicuous, and no services, however valuable and chivalric, can shield from Presidential proscription any man who refuses to surrender his convictions at the demand of the Administration.

THE removal of General HOWARD from the Freedmen's Bureau is a fitting consummation. As the case stands, a Christian gentleman would find it hard, in obedience to military discipline, to be made an instrument of injustice and oppression.

LOYAL MEN at the South have ceased appealing to the President for protection, but turn instinctively to Congress and the loyal men of the North. They measure the situation correctly.

The Death of Dean Richmond.

NEW YORK, Aug. 27.—The *World* says of the death of Dean Richmond: Mr. Richmond was struck down by a severe congestive cerebral disorders, greatly aggravated, if not directly induced, by his unsparing labors to bring about the successful results recently attained by the National Democratic Convention at Philadelphia. His wife and family were with him to the last and he received the most assiduous care and attention from the best medical nobility of the City, including Professor Clarke, W. H. Van Buren, Metcalf, Willard, Parker and Flint, being in constant consultation over his case. On Friday night there was observed a marked change for the worse, and since that time his eminent physicians had begun to hope for his recovery, but he grew weaker all yesterday, and passed away at ten minutes past two o'clock this morning, upon a pang. Mr. Richmond was borne in Woodstock, Vermont, March 31st, 1804.

Attorney General Speed, this evening, and appointed the 17 men commended by the recent Lexington meeting for delegates to the loyal Union Convention of Philadelphia, and appointed thirty additional delegates to represent the fifth Congressional District.

The Reasons Why Hostetter's Stomach Bitters Should Have a Place in Every Home.

Because by invigorating the constitution and the frame they avert sickness.

Because (especially) their use prevents the atmospheric poison which produces epidemics from taking effect upon the system.

Because they cure indigestion, and impart unwonted vigor to the stomach.

Because they are the best appetizing medicine at present known.

Because they are the only preparation upon which persons of a bilious habit can safely rely to keep the liver in good order.

Because they tone and regulate the bowels, and invariably relieve them when constipated, without causing undue relaxation.

Because they strengthen the nerves, clear the brain, and cheer the animal spirits.

Because in case of an attack of spasms or bilious colic they are the best thing that can be administered on the instant.

Because they combine the three properties of a tonic, an alterative and a nervine in their utmost purity and perfection.

Because they are a specific against Ague and Fever and all intermittents, and with all their potency as a preservative and a remedy, are as harmless as water from the mountain spring!

The Chair presented a remonstrance from a number of citizens against the erection of a Fire Engine House on Second street adjoining the Homeopathic Hospital, giving as a reason that the street is too narrow, and that it is occupied by private residences, and that its erection will lessen the value of property in that neighborhood. Democratic Meeting at City Hall—Speeches of Senator Cowan and Governor Johnson.

Quite a large number of our citizens assembled in City Hall, last evening, to hear the great questions that are now agitating the country, discussed by Senator Cowan, Hon. W. F. Johnson and others.

The meeting was called to order by H. A. Weaver, Esq., who nominated George S. Gilmore, as Chairman. The nomination was ratified, and after an air from the band, Mr. Weaver read the following list of officers, who were elected by acclamation.

Vice Presidents.—Gen. Geo. W. Cass, Gen. Geo. Gallupe, Col. Jas. P. Barr, Francis Sellers, Esq., Dr. A.C. Murdock, Col. Henry McCullough, Geo. F. Shunk, Esq., Wm. M. Robinson, Esq., Major Wm. McCandless, C. H. Lainson, Esq., Wm. J. Kountz, Esq., John McMasters, Esq., Wm. McMurry, Esq., Col. James K. Kerr, Dr. A. Ewing, Col. Wm. Frank Wilson, J. M. Aunay, Esq., Gen. Thomas A. Rowley, Joshua Rhoades, Esq., A. W. Watson, Esq., David D. Bruce, Esq., Marshall Swartzwelder, Esq., Col. Thomas M. Bayne, Hugh Lyman, Esq., Adam Reineman, Esq., John Hall, Esq., Andrew Humbert, Esq., John B. Sawyer, Esq., John T. Hunt, Esq., Wm. Smith, Esq., Lewis Fleming, Esq., Jas. C. Gallagher, Esq., Henry Rosenbaugh, Esq.

Secretaries.—James W. Kennedy, Esq., Capt. Augustus Brown, Robert Ready, Esq., Julius A. Ritchy, Esq., John J. Mitchell, Esq., Chas. T. Porter, Esq., Geo. W. Leonard, Esq., Chas. B. Strain, Esq.

OPENING ADDRESS.

On taking the chair, Mr. Gilmore referred briefly to the issues before the people, and commended in strong terms the action of the Philadelphia Convention. He alluded to the animosity and spirit evinced by the people of the South since the close of hostilities, and thought the North could not ask any further pledge of their loyalty than that which Gentleman was speaking Senator Cowan and Gen. Sweitzer came upon the stage, and were greeted by cheers, which effectually drowned the words of the speaker, and he soon upon retired and introduced Senator Cowan.

Considerable enthusiasm was manifested when Mr. Cowan came forward. After it had somewhat subsided he addressed those present for the kind reception given him, and proceeded to review the political situation. He said they had met for the purpose of accepting that which was the dearest to every American heart—the restoration of the States to their former pristine glory and greatness. The Government has two great characteristics. The first, that every citizen comes from and derives all its power from the people, and the second great characteristic is, that it is Government of laws. Nothing can be done without authority of law. Every General who is the *par excellence* of generals, can harm the smallest child in this republic, unless through the authority of the municipal law, and if we don't we are lost. We cease to be a free people, and sink into despotism. The Speaker did not believe the difficulties in the way of reconstruction were so many as to make brave men afraid—they could be easily overcome. We must expect to meet difficulties, but when they are overcome we will have a union for our reward. In alluding to the war he said, in 1861 we had no army—no navy, no exchequer. We had some doubt whether we were a first-class power, and during the first interpretation of this term in Europe. We found out that we were two first-rate powers. So far as that war was an evidence of our genius, valor and skill, the people are united—neither parties have

SOLDIERS OF FORTUNE.

A Scotch veteran, who had followed "the meteor flag of England," over seas, and on four continents, through forty years of almost continuous warfare, settled an appeal made to him respecting the prevalence of cowardice, by declaring he had never seen a coward; that there were differences in the readiness and tenacity with which men faced danger, but, as a rule, all men had more courage than was for their good, getting into harm's way when they had done better to have staid out. The commonness of the commodity seems to lessen its comparative value.

The indifference or alacrity with which men engage in war is something marvellous, notwithstanding the perpetual recurrence of the spectacle. It does not require strong moral or mental convictions to lead men to take up arms. Ambition, love of notoriety, a spirit of unrest and adventure, and even the offer of a small bounty, make irresistible appeals to tens of thousands.

As soon as the war broke out, not a few men who had for years, professed implicit faith in the Virginia and Kentucky Resolutions; who believed in State sovereignty to a degree that fully covered the Rights of Secession; who maintained that Slavery was girt about with the highest Divine and Human sanctions, in so much that opposition to it at the North justified the Southern States in seceding from the Union and setting up an adverse and independent government, rushed to arms in defence of the Union. They claimed peculiar credit because they were doing violence to the cardinal principles that had controlled their lives. All we care to say is that we never have felt a sentiment of respect for that class of men, and never expect to. Mr. VALLANDIGHAM, in our judgment, radically as we differ from him in idea and purposes, presents a fairer type of character. His principles are vitally wrong; but such as they are, he lives squarely up to them.

Let us not be understood as asserting that if a citizen differs from his government, or the administration thereof, he is absolved from any of the duties of citizenship. We hold to no such nonsense. Whether a citizen is in the majority or the minority he owes fealty to the government, in paying taxes, bearing arms, and in every other particular. *Volunteering* to enter the military service is not a duty of citizenship.

When the war ended, a good many military men in common with many other people, supposed there would be no intrinsic disagreements between the President and Congress on the matter of reconstruction. The path to promotion seemed to be through Radicalism. They took their bearings accordingly. In private circles, on steamboats, in railway coaches, in hotels—in all places whatsoever—they proclaimed that the South, though beaten, was in a sullen and hostile frame of mind; that unconditional restoration would be fatal to future harmony; that a considerable probation under military governance, with the imposition of stringent and permanent conditions, was indispensable to a just and beneficent termination of the great controversary. Some of them went before the Congressional Reconstruction Committee, and made soleman oath to this effect, in the broadest manner conceivable. They went as far as STEVENS, WADE, SUMNER or WILLIAMS have ever gone.

As soon as it was manifest that a second feud existed between the President and Congress, and that the President was resolved to use the power of appointment, both in the civil and military services, to carry his points, these men experienced sudden conversions, not surpassed by SAUL's. Their eyes underwent a revolution. They saw nothing as they saw it before. Their speech was changed. A new language was on their lips. They were ready to certify or swear to a totally different state of facts; and have so certified and sworn.

Shall the possession of physical courage cover up and gloss over defects flagrant as these? It is folly for these men to claim to be patriots. They are simply Soldiers of Fortune, ready to hire their swords to any cause.

We by no means put all soldiers who adhere to the Democratic party or support the President's Policy in this category. We rank only those then who by their public avowals and commitments place themselves there. Not a few men are democrats who can give no definite account of the Virginia and Kentucky resolutions; who can set no clear limits to Federal authority and State Sovereignty, who have no conception of the universality and inalienability of Liberty, and whose prime idea of democracy is to curse New England and the negroes.

EARLY FROSTS.

Last July was the warmest month experienced in this country for many years. The present August is the coldest month of that name in the life-time of a generation. A trip across the State has enabled us to see some of the effects of the untimely cold, and to hear of more. On the Alleghenies, frost has fallen almost every clear night during the month. Up the north branch of the Susquehanna from Northumberland to Pittston there have been frosts, and up the Lackawanna from Pittston to Carbondale. These river frosts were not heavy enough to do damage. On the northern slope of the Moosic Mountains there are large spots where the forest leaves have been seared, myriads of them taking on the gold and scarlet of autumnal ripeness.

GONE!

The democratic party is dead and buried. Its name is blotted out, and those who lately gloried in it are now ashamed to utter it or to write it; or perhaps they are forbidden to do so. In the *Post*, as at present published, the word is dropped from the head of the ticket, and all that now appears, where the ticket ought to be emblazoned, is this:

"FOR GOVERNOR,
HEISTER CLYMER."

That's all. There are no other candidates named. Where is the ticket that was ratified by the late "*Democratic* county convention, as its last will and testament?" Does the *Post* repudiate it?

Immediately under the sickly announcement of the name of HEISTER CLYMER as a candidate "for Governor"—not as the democratic candidate, but only as a candicate—a notice for a "Ratification Mass Meeting of the *Conservatives* of Allegheny County," appears in bold display type, of which meeting HENRY A. WEAVER, THOS. J. KEENAN and JOHN H. SAWYER, constitute the committee of arrangements, and Hon. EDGAR COWAN, Hon. WM. F. JOHNSTON, Gen. RICHARD COULTER and Gen. J. BOWMAN SWEITZER are announced as the orators. The democrats, it will be observed, are to take back seats; still they will be expected to vote to a man as the aforesaid "Conservatives" shall direct.

When the Democracy consented to be hewers of wood and drawers of water to the lordly slave aristocracy of the South, and stuck to them even after they had become open and avowed traitors, the shame and humiliation was deeper and darker than we should have believed any American citizen could have submitted to. But even that was not so degrading as this; for when the men who afterwards became rebels required the services and the votes of the Northern Democracy, they condescended to be called Democrats themselves, although they knew, and felt, and acknowledged that it was to the last degree ridiculous; and of course they permitted their Northern allies to flaunt their unmeaning banner as much they pleased. This satisfied them, and they were content. But when, JOHNSON and COWAN and JOHNSTON and SAWYER take command, the old rag must come down.

Well, it was about time it should come down; for it had been the ensign, in later years, of both slavery and treason, although originally the banner of freedom. But that it should have been lowered and laid at the feet of such men as these is a spectacle from which even radical Republicans turn away with mingled feelings of sorrow and disgust.

Conservative! What does that term mean? In England it is a synonym of Tory. It is a term applied to those who stand up for the prerogatives of royalty and the preservation or conservation of ancient abuses. It is the party name of those who resist reform and oppose the extension of the elective franchise. In this country Conservatism did all it could to preserve slavery; but, failing in that, it now seeks to conserve the dregs of slavery; to crush and debase an emancipated, but still helpless and unfortunate class; and to cast the shield of its protection over defeated, but still bitter and unrepentant rebels. Like its kindred English principle, it crouches and crawls at the feet of power and patronage, and lives and thrives upon the smiles and pats of the aristocratic and the proud. Good-bye to American Liberty if ever that party gets into power.

Conservatism in politics is a mean term, fit only for cowards and slaves. It is, in its true acceptation, the very opposite of democracy. It stands as a barrier to progress, and resists the march of human ideas. The Scribes and Pharisees, in the time of our Saviour, were conservatives; so were the ecclesiastics of Rome in the days of LUTHER; so were the Cavaliers who rallied around CHARLES I., and so were the Tories of our Revolution. Are the men who have long gloried in the opposite term, Democracy, going to rally under such a banner as that? The next election will tell.

SWALLOWING BOTH WAYS.

On Tuesday last the New York delegates to the Philadelphia Convention surrendered to the Democratic party of that State; and henceforth what remains of these two fragments of factions are expected to work in harmony. The more adroit managers of the old party outmanœuvred those of the new, and thus Messrs. RAYMOND, PRUYN, and other deserters from the true party of the Union, are now impressed into the service of the Rebels and Copperheads. They are committed, and cannot back out; but thousands of amiable gentlemen, whose lack of courage made them Conservatives, and others whose vanity prompted affiliation with that peculiar type of mankind who hold that "the king can do no wrong," and who fancy it would compromise their dignity to associate themselves with radicals and progressives, will be constrained to come back again to the heroic party who rallied around LINCOLN and crushed the rebellion.

Here the operation of coalescing was just the reverse—the Democrats surrendered to the Conservatives. General CASS must have always been painfully sensible that, so far as he was concerned, his party name was a gross misnomer; therefore he struck the Democratic flag with apparent gladness to the Conservatives, and surrendered his brigade to a little squad.

These political nuptials, these queer coalitions, are only evidence that the elements outside of the great and only loyal party are in a state of disruption and disintegration. There are thousands of honest men who have always voted with the democracy merely because it was so called, believing that it was the true party of the people, but who will scorn to be associated with men whose hands are stained with the blood of their countrymen shed in defending the flag and the constitution from their unhallowed revolt. Let rebels combine—one portion swallowing up the other as it may happen—it will only render our victory the more complete. It will be killing, not two birds, but two snakes, with one stone.

GENERAL SHERIDAN'S STATEMENT.

It will be remembered that the President, in a dispatch, ordered General SHERIDAN to furnish him with a full statement of the facts respecting the events which had just occurred in New Orleans. The following is the General's report in full. Only a part of it was given in our telegraphic report:

OFFICE OF U. S. MILITARY TELEGRAPH.

The following cipher telegram received 4:30 a. m., August 8, 1866, from New Orleans, La., August 6, 12 m., 1866:

His Excellency Andrew Johnson, President of the United States:

I have the honor to make the following reply to your dispatch of August 4th:

A very large number of the colored people marched in procession on Friday night, July 27th, and were addressed from the steps of the City Hall by Dr. Dostie, Ex Governor Hahn and others. The speech of Dostie was intemperate in language and sentiments. The speeches of the others, so far as I can learn, were characterized by moderation. I have not given you the words of Dostie's speech, as the version published was denied, but what I have learned of the man I believe they were intemperate.

The Convention assembled at 12 m., on the 30th, the timid members absenting themselves because the tone of the general public was ominous of trouble. I think there were out about twenty-six members present. In front of the Mechanics' Institute, where the meeting was held, there were assembled some colored men, women and children, perhaps eighteen or twenty, and in the institute a number of colored men, perhaps 150.

Among those outside and inside there might have been a pistol in the possession of every tenth man. About 1 P. M., a procession of say from sixty to one hundred and thirty colored men marched up Burgundy street and across Canal street., towards the convention, carrying an American flag. These men had about one pistol to every ten men, and canes and clubs in addition. While crossing Canal street a row occurred. There were many spectators on the streets, and their manner and tone towards the procession unfriendly.

A shot was fired, by whom I am not able to state, but believe it to have been by a policeman at some colored man in the procession. This led to other shots and a rush after the procession. On arrival at the front of the institute, there was some throwing of brickbats by both sides. The police, who had been held well in hand, were vigorously marched to the scene of disorder. The procession entered the institute with the flag, about six or eight remaining outside.

A row occurred between a policeman and one of the colored men, and a shot was fired by one of the parties, which led to an indiscriminate fire on the building through the windows by the policemen. This had been going on for a short time when a white flag was displayed from the windows of the institute, whereupon the firing ceased and the policemen rushed into the building.

From the testimony of the wounded men and others who were inside the building, the policemen opened an indiscriminate fire upon the audience until they had emptied their revolvers, when they retired, and those inside barricaded the doors. The doors were broken in and the firing again commenced, when many of the colored and white people either escaped through the doors, or were passed out by the policemen inside.

But as they came out the policemen who formed the circle nearest the building fired upon them, and they were again fired upon by the citizens who formed the outer circle. Many of those wounded and taken prisoners, and others who were prisoners and not wounded, were fired upon by their captors and by citizens. The wounded were stabbed while lying on the ground, and their heads beaten with brickbats, in the yard of the building, whither some of the colored men escaped and partially secreted themselves. They were fired upon and killed or wounded by the policemen.

Some men were killed and wounded several squares from the scene. Members of the convention were wounded by the policemen while in their hands as prisoners, some of them mortally.

"The immediate cause of this terrible affair was the assembling of this Convention. The remote cause was the bitter antagonistic feeling which has been growing in this community since the advent of the present Mayor, who in the organization of his police force selected many desperate characters and some of them known murderers. People of clear views were overawed by want of confidence in the Mayor and fear of the Thugs, many of whom he had selected for the police force. I have been frequently attplied to by eminent citizens on the subject, and have heard them express fear and want of confidence in Mayor MONROE since the nomination at this last Convention. I must condemn the course of several of the city papers for supporting by their articles, the bitter feeling of bad men. As to the merciless manner in which the Convention was broken up, I feel obliged to confess strong repugnance. It is useless to attempt to disguise the hostility that exists on the part of a great many here towards Northern men, and this unfortunate affair so precipitated matters that there is now a test of what shall be the status of Northern men; whether they can live here without being in constant dread or not; whether they can be protected in life and property, and have justice in the courts. If this matter is permitted to pass over without a thorough and determined prosecution of those engaged in it, we may look out for frequent scenes of the same kind, not only here, but in other places. No steps have as yet been taken by the civil authorities to arrest citizens who were engaged in this massacre, or policemen who perpetrated the cruelties. The members of the Convention have been indicted by the Grand Jury, and many of them arrested and held to bail. As to whether the civil authorities can mete out ample justice to the guilty parties on both sides, I must say it is my opinion, unequivocally, that they cannot. Judge Abell, whose course I have closely watched for nearly a year, I now consider one of the most dangerous men that we have here to the peace and quiet of the city. The leading men of the Conservation, King, Cutler, Hailing, and others, have been political agitators, and are bad men. I regret to say that the course of Gov. Wells has been vacillating, and that during the late troubles he has shown very little of the man.

P. H. SHERIDAN,
Major General Commanding.

—A gentleman who has resided in St. Louis for the last forty-six years, suggested to us, yesterday the expediency of giving publicity to a very simple mode of warding off all danger of attack by the epidemic now prevailing to some extent. It is merely drinking a wine glass of weak lye water daily. He never knew an instance of its failure, and for the last twenty years—having used it in his own family—there has not been a case of even cholera morbus among any of its members, young or old.

—The Emperor of Austria, in order to show his gratitude to his ally for his pains in bringing about a peace, intends permitting the remains of the Duke of Reichstadt, still being entombed and sent to Paris, where they will be laid by the side of his father, Napoleon I. Now is the time for the poets of France to prepare fresh incense for the present dynasty.

—The building inspectors on Friday notified the contractor for the "Wigwam" that it had been put up in violation of the ordinance of the city prohibiting the erection of wooden buildings. The penalty for the violation of the ordinance (*ex*) was paid. The structure has to be removed within thirty days, or another penalty of $50 will be imposed.

BROWN'S VERMIFUGE COMFITS, OR WORM LOZENGES.—Much sickness undoubtedly, with children and adults, attributed to other causes is occasioned by worms. The VERMIFUGE COMFITS, although equal in destroying worms, can do no positive injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be safe and sure in eradicating worms, so hurtful to children.

Children having worms require immediate attention, as neglect of the trouble often cause prolonged sickness.

Symptoms of worms in children are often overlooked. Worms in the stomach and bowels cause irritation which can be removed only by the use of a sure remedy. The combination of ingredients used in making BROWN'S "VERMIFUGE COMFITS" is such as to give the best possible effect with safety.

Not a Burglar.

On Saturday morning, between three and four o'clock, a lady named Mrs. Ruth Johnston, residing in the borough of South Pittsburg, was awakened from her morning nap by a noise which seemed to proceed from the kitchen window in the rear of the house, cautiously raised, and from the noise that followed she was positive somebody was entering the house. Not being gifted with a sufficient amount of nerve to raise an alarm, or call her son, who occupied an apartment in the third story—she laid there almost speechless from fright, expecting each moment the burglar to enter her apartment, and perhaps murder her. She could distinctly hear the heavy tread of some person in the kitchen, and occasionally the rattle of a fish which led her to suppose her larder was being made lighter by the nocturnal intruder.

She was relieved at length by hearing the window open and close again, and a few moments after the tread of some person passing through an alley that led to the front street. Springing to a window, she saw a man disappear in the darkness, carrying something in his right hand that looked in the uncertain light like a bucket. The entire household was next alarmed, and organizing themselves into a body for mutual defense, they proceeded to the kitchen where they found the large dining table almost covered with scallops, killed with milk. The whole mystery was unraveled. The intruder was no other than the milkman, who, finding the milk pitcher in its usual place on the window sill, had entered and distributed the two quarts as stated.

We must say the vender of the lovine fluid is possessed of a considerable amount of fool hardy pluck, as in thus entering a private dwelling at such an unusual hour, he ran the risk of being dealt with as a burglar.

Money Order Postoffices.

The following named postoffices are money-order offices in this Commonwealth. It would be well for business men to cut this out and preserve it for reference:

Allentown, Altoona, Bedford, Bellefonte, Bethlehem, Brookville, Brownsville, Butler, Carlisle, Chambersburg, Chester, Clarion, Clearfield, Columbia, Corry, Coudersport, Danville, Doylestown, Easton, Ebensburg, Erie, Franklin, Gettysburg, Greensburg, Greenville, Hanover, Harrisburg, Honesdale, Huntingdon, Indiana, Johnstown, Kittanning, Lancaster, Lebanon, Middletown, Mauch Chunk, Meadville, Minersville, Montrose, Muncy, New Brighton, New Castle, Norristown, Northumberland, Oil City, Philadelphia, Phoenixville, Pittsole City, Pittsburgh, Pottsville, Reading, Ridgeway, Scranton, Selinsgrove, Somerset, Stroudsburg, Susquehanna Depot, Titusville, Towanda, Troy, Uniontown, Warren, Washington, Wellsboro, West Chester, Williamsport, Wilkesbarre, York—68.

There has also been a change in the rates of commission, which are now regulated as follows:

On orders not exceeding $20, 10 cents.
Over $20, and not exceeding $50, 25 cents.
No single order issued for more than $50.
Persons desiring to remit larger sums obtain additional money orders.

Revenue Law Decision.

In the United States District Court, yesterday morning, Judge McCandless delivered the following opinion in the case of the United States vs. The Distillery of Newberry Short.

"This is not a case which demands a forfeiture. The proofs show that the Distillery was not in the process of erection, was incomplete, and the whiskey manufactured but three or four barrels in quantity, was more the product of experimental tests on the machinery than a regular business.

"The res ondent, instead of evading the law, seems to have been anxious to comply with its provisions, for when addressing a Government officer about taking out a license, and explaining to him the unfinished condition of his distillery, he was told "it was all right." Failing to take out a license, he has been criminally prosecuted, and pleading guilty, has been fined. For any violation of the law, and any evil he has done, he has been sufficiently punished.

"The libel is dismissed at the costs of the United States."

New Books Received.

We have received the following new books:

SIX MONTHS AT THE WHITE HOUSE WITH ABRAHAM LINCOLN. F. B. Carpenter, author. Published by Hurd & Houghton, New York Pittsburgh: Henry Miner, Fifth street.

This is an very interesting book, and to persons who cherish the memory of the martyred Lincoln will prove especially entertaining. It is well printed, and handsomely bound, retailing at Miner's at $2.00 per copy. The book will certainly meet with a large sale here.

PEAT AND ITS USES, AS FERTILIZER AND FUEL. By Samuel W. Johnson, A. M., Professor of Analytical and Agricultural Chemistry, Yale College. Published by Orange Judd & Company, New York. Pittsburgh: Rev. J. Knox, Fifth street.

This work is as once instructive and entertaining. Written in plain, elegant language, every idea clothed in simple words and so comprehensive that the most ordinary intelect can fully understand the interesting topic discussed. To men of science, as well as farmers, this work will prove an invaluable addition to their library.

Narrow Escape.—Yesterday morning a gravel train on the Western Pennsylvania Railroad, while crossing the road near the Gurty's Run rolling mill, ran into a market wagon driven by Mr. John Graveoy, garuiner for Shafer township, who, from some cause, failed to hear the whistle. The wagon was very nearly demolished, and its contents scattered for a number of yards around. Mr. Gravely was thrown into the air a distance of ten feet, and fell on his head and left shoulder, about fifteen feet from where the engine struck his wagon, but fortunately escaped without any bones being broken or anything more serious than a severe concussion, although the shock was so great that for nearly an hour after the accident it was impossible to make him understand what had occurred. No blame can be attached to the conductor of the train.

Street Nuisances.—A correspondent asks us to call the attention of the Mayor and Police to "a glaring violation of the Ordinances in the Fruit and Confectionary Stands at every corner of the streets, which he says appear to be ceded to the Italians.

If these stands protruding on the side walk are permitted at all, they should be confined to unfrequented streets. Fifth street and perhaps Wood, Market and St. Clair, should not be obstructed. The whole of the side-walks are required for the passing multitude. Our population is now so large that narrow streets have become a nuisance, which ought not to be aggravated by fruit stands or other obstructions diminishing their capacity.

Foot Crushed.—About noon yesterday a man by the name of Janson Robb had his foot badly crushed by being run over by a car at the Federal street crossing of the Pittsburgh, Fort Wayne and Chicago railroad in Allegheny city. He had come up from the outer depot on the train, and in attempting to jump off he fell within a few feet across the track, and before he could extricate it the car passed over it. He was carried to a drug store in the neighborhood, where the wounded limb was dressed.

Report Confirmed.—S. C. McCandless, Esq., Commissioner in the case of T. A. Packard et al. vs. the steamboat Spray, submitted a report yesterday morning in the United States Court, sitting in admiralty, of the appropriation and distribution of the money arising from the sale of the boat and paid into the Registry. The Court, Judge McCandless presiding, confirmed the report *nisi*, and directed that it be made absolute unless exceptions be taken to the same within ten days.

Malicious Mischief.—Mary Ann Boice was before Alderman Lynch, yesterday, charged with malicious mischief, on oath of Ann Cregan. It seems Mary Ann had an altercation with the husband of the prosecutrix, relative to the use of a bake oven, which is the joint property of the parties mentioned. According to the statement of Mrs. Cregan, the defendant broke the arch of the oven with an axe to satisfy her revenge on the Cregans. She gave bail for a hearing to-day.

A Murderous Threat.—Patrick Cairns was before Alderman Taylor, yesterday, to answer a charge of surety of the peace preferred against him by Margaret Mullen. Both parties reside in the Fifth ward, in the vicinity of Shoenberger's rolling mill, where they have been squabbling and bickering for the last two weeks. The masculine belligerent became so excited on Saturday as to say he would cut the throat of Miss Mullen. He gave bail for a hearing to-day.

Another Version.—Geo. Kennedy called at our office yesterday morning, and desires that the statements in regard to his owing Sperry money for board, &c., are untrue. He has a draft drawn by him in favor of Sperry for one hundred and ten dollars; which is marked paid in corroooration of his statement. Gil Blas says "he who hears but one side, hears nothing." This is first rate law. We have now presented both sides of the case.

Mayor's Court.—Seven persons were before the Mayor yesterday morning, six of whom belonged to that disorderly class whose retirement is always preferable to their society, and one to that class of unfortunates who place an enemy in their midst that steals away their brains. Over one hundred dollars were paid to the Mayor yesterday in the shape of fines for the privilege of getting jolly.

Accident.—On Saturday evening a young man employed in Maginnis' steam cracker bakery, on Church avenue, Allegheny, was severely scalded by the escape of the hot mud pipe connected with the boiler blowing out, which filled the engine room with steam and boiling water, injuring him as above stated. He was removed to his home, where his injuries were attended to by Dr. N. W. White.

Town Her Colesdial.—Amanda Shearer appeared before Justice Lippert yesterday and made oath against Jane Lose for assault and battery. The offense consisted in Jane tearing a delicate "celestial" from the head of the bewitching Amanda, for which she was held in $300 for her appearance at the next term of the Quarter Sessions.

Sued.—Thomas Manning was sued before Alderman Morrow on Saturday for abusing his wife Sarah. He gave bail for a hearing. The parties reside in Peebles township.

Special Caution.—Mrs. Winslow's Soothing Syrup has become so popular that various parties have put out articles calling them Mrs. Winslow's Soothing Syrup. We notice that the Mrs. Winslow of the Soothing Syrup is not connected with any other article. jy11:d&w

EARLY TELEGRAMS.

FROM CHILI.

Large Purchase of Guns from Massachusetts—Chili Proposing to Purchase the Dunderberg—Battle Between Two Chilian and Three Spanish War Vessels.

NEW YORK, August 27.—A Santiago, Chili, correspondent of July 15th, states that several guns have been purchased of Massachusetts for $600,000, without carriages. This ordnance includes four four hundred and fifty pounders, six three hundred pounders, and six eight pounder Blakely guns, the remaining consisting of serviceable artillery of various calibres, but not very heavy. The English guns are those purchased by Massachusetts during the late war for the protection of Boston Harbor from rebel pirates, &c. As the carriages are to be built in the United States, some time will elapse before the ordnance can be shipped.

A Chili agent writes from New York that he has been trying to buy the Dunderberg. He says that Mr. William H. Webb wants $2,500,000 for the iron-clad there, and that Webb offers to deliver, complete, in Valparaise, at his own risk, for $3,500,000, one million extra. Nobody here expects Chili to buy the Dunderberg, though her agents are doing their best to get the vessel.

Mr. Benjamin Vicuna M'Kenna is to be appointed to fill the place of the Chilian Envoy to the United States, in place of Senor S. F. Asta Burnags, present Minister from Chili to that Republic.

The captain of a bark from the Malvine Isles states that on the 27th of May he witnessed from the top of a hill, on one of the islands, a battle between two Chilian and three Spanish vessels, but could not learn the result of the fight, owing to a sudden storm having arisen. The Valparaiso papers attach no importance to the news, but consider it the contrary, unreliable. The Government official organ does not give any credit to the Captain's story. However, when Mr. M'Kenna was in Lima he expected that there was another war, which will be more desperate than the one out of which we have just emerged. The former leaders in the rebellion save some dozen Union men elected to fill unimportant county offices, have all been elected, and they are more hostile and rabid than they were during the war, or before the state seceded. Unless troops are kept in the most important towns there will not be a Union man left in Texas in six months. The disloyal from other States are coming in more or less every day, and thousands are returning from Mexico, who went off with Price and Shelby, and a more desperate set never before infested any country. Murders are an every day occurrence. The freedmen are held in many parts of the State in as strict bondage as before the war, and Union men dare not speak their sentiments openly. Secret societies like the K. G. C.'s are organized all over the State, and unless the state is held under strict military rule, we will have another outbreak in less than six months.

Collision on the Erie Railroad—The Train, Three Dwellings, and Other Property Burned—Eight Missing, and Four Children Burned—Loss $80,000.

NEW YORK, August 27.—A train with eight car loads of petroleum, on the Erie Railroad, was collided with yesterday, near Narrowsburg, New York. Several cars were smashed, and the petroleum caught fire and exploded, and burned the whole train. Three dwellings, a wagon shop, a carpenter shop, a hide house and five thousand feet of lumber caught fire from the burning oil and were entirely destroyed. Mr. Williams, endeavoring to rescue his two children from one of the houses, dropped one, and while attempting to rescue it all three were fatally burned. The two children died, and he is not expected to recover. Mrs. Williams, his wife, jumped from a second story window, and immediately gave birth to a child. She is not expected to live. The conductor of the train was badly burned. The loss of property by the fire is estimated at about eighty thousand dollars.

The Cholera in Cincinnati—Sale of Pews in the Jewish Synagogue.

CINCINNATI, August 27.—Eleven deaths from cholera were reported yesterday. The disease has lost its epidemic character and is rapidly abating.

The sum of two hundred thousand dollars was realized from the sale of pews in the new Jewish Synagogue yesterday.

Radical Union Convention.

LOUISVILLE, August 27.—A Convention of the Radical Union men was held at Lexington, Ky., on Saturday, and delegates appointed to the Philadelphia Convention. Resolutions were adopted censuring President Johnson, and endorsing the reconstruction policy of Congress.

FROM NEW YORK.

A Man Mortally Wounded by Burglars—Burning of a Tenement House—The Cholera—Deserters in Pennsylvania—Death of Dean Richmond.

NEW YORK, Aug. 27.—John Haslam was called out of bed by four acquaintances, who assaulted and mortally stabbed him. They were arrested, and proved to be four brothers, whose trial is soon to come off at Philadelphia, and Haslam being the only witness against them, this mode was taken to get rid of him. He is not expected to live.

A tenement house, containing a large number of families, on Third avenue, was burned last night. The chief engineer and Police Department rescued a woman from a burning room.

Cholera statistics show only eleven cases and two deaths in this city on Saturday and on Sunday. Very few cases were reported in Brooklyn. The disease is rapidly disappearing.

A special states that the names of sixty thousand deserters from Pennsylvania regiments have been obtained for use in the coming elections. All volunteer officers now on staff duty will soon be mustered out.

Dean Richmond died last night.

Rumored Cabinet Changes—Pennsylvania Deserters.

PHILADELPHIA, August 27.—Washington rumors are again rife in regar to the removal of Stanton and Howard. It is asserted that Stanton leaves this week, and will be succeeded by General Steedman. The policy of the administration in respect to the Pennsylvania in office is not fully understood throughout the country. The Secretary of the Treasury is averse to changes merely for political reasons unless the incumbent of office makes himself obnoxious by his violent hostility to the Government. Other heads of department maintain that the Administration now has a distinct policy, and has characterized the opposition to it as disloyal, because tending to the permanent dissolution of the Union; therefore, it is the duty of the Government to dispense its patronage only to those who manifest their loyalty by a cordial and earnest endorsement of the policy of the Administration. Entertaining these two views the President seeks to exercise a wise moderation, examining carefully each case that comes before him. It may be that the continuance of hostilities against him will compel the adoption of a stern, unrelenting, Jacksonian policy, requiring all subordinates to conform strictly to his political creed or surrender their offices; but no such policy had as yet been adopted.

The Radical leaders in Pennsylvania have procured from the War Department a list of deserters, sixty thousand, to be challenged if they attempt to vote.

Chinese Commissioners Coming—The President's Recent Proclamation—Desperate Condition of Affairs in Texas—Another War Imminent.

NEW YORK, Aug. 27.—The Pekin (China) correspondent of the *Times* says: The Chinese Government have decided to send a Commissioner to the United States.

A *Tribune's* special says: The Paymaster General announces that the recent proclamation of the President does not, in any manner, effect the pay of soldiers.

A letter from Captain Bingham, of Texas, says: We in Texas are on the eve of another war, which will be more desperate than the one out of which we have just emerged. The former leaders in the rebellion save some dozen Union men elected to fill unimportant county offices, have all been elected, and they are more hostile and rabid than they were during the war, or before the state seceded. Unless troops are kept in the most important towns there will not be a Union man left in Texas in six months. The disloyal from other States are coming in more or less every day, and thousands are returning from Mexico, who went off with Price and Shelby, and a more desperate set never before intested any country. Murders are an every day occurrence. The freedmen are held in many parts of the State in as strict bondage as before the war, and Union men dare not speak their sentiments openly. Secret societies like the K. G. C.'s are organized all over the State, and unless the state is held under strict military rule, we will have another outbreak in less than six months.

—Gold continues weak, in consequence of a falling through of the bull combination in New York, formed several days ago for the purpose of advancing the premium as far as possible. As an additional stimulus, it is rumored that the Government was prepared to anticipate the $22,000,000 gold interest due on the various Five Twenties on the 1st of November. Whether this be true or not, it seems settled that an arrangement will be made to accept the November coupons in advance for custom duties, should the demand for gold for this object seem to tend through September and October to aggravate the scarcity of gold.

—The following are the regulations relative to the exchange of the first series of Seven-thirties for Five-twenties of 1865. The interest on the bonds is changed from May 1, 1866, to the date of conversion, interest being allowed on the Seven-thirty notes to the same date. If the coupons due August 15, 1866, have been detached, sufficient currency must accompany the notes to pay the accrued interest on the bonds, otherwise such accrued interest will be deducted from the principal of the notes. All notes payable to order must be endorsed by the payer in blank, or to the order of the party transmitting them for conversion who must indorse such notes over the signature, as follows: "Pay the Secretary of the Treasury for redemption." All notes indorsed by administrators, executors, or assignees, or per attorney, must be accompanied by certificates of the power of the indorsers. About $3,000,000 of the notes have been converted within the past month.

—Says the Boston *Bulletin*:

To provide currency for the payment of the temporary loan maturing the 30th, Secretary McCulloch may be obliged to sell both gold and five-twenty bonds. The government stock market has in fact been slightly affected by the report that more five-twenties are to be issued for the purpose aforesaid. The Secretary is fortifying himself by heavy drafts upon the National depositories. The first series of 7-30s Aug. 15, 1864, may be converted into 5-20s (1865) by transmitting them to the Secretary of the Treasury indorsed, "Pay Secretary of the Treasury for redemption." Interest on the 5-20s is charged from May 1, 1866, and interest on 7-30s is allowed to date of conversion. A more favorable conversion may, however, be effected by selling the 7-30s in open market, and purchasing to 5-20s.

—A leading London journal, by the last mail, dated nearly three months after the panic of last May, tells us that many signs prove that England is on the verge of widespread commercial ruin, and painful as the admission is, it must be conceded that the credit of that Great and wealthy country abroad is for the time gone. The distrust of English bills is such that foreigners flatly refuse them, with the exception of those on a very few first-rate houses, and require payment of their debts in specie. Hence the accumulation of $28,250,000 of bullion in the Bank of France, and a rate of discount barely exceeding 2½ per cent in the open market in Paris, while more than three times as high a rate is upheld by the Bank of England, and even at that, advances are becoming more difficult, except on first-class securities of the best commercial names. Numerous banking failures, and the misery that they have entailed, in England, naturally induce not only general caution, but the desire to keep some cash at hand, lest sudden ruin and privation already experienced should extend to those who have thus been exempt. There are good and cogent reasons, we take it, why England will be likely to hold on to her coin and bullion, at least until such times as there shall be a decided amelioration in the condition of her finances.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, August 27, 1866.

The produce market did not open very auspiciously this week, if to-day's operations can be taken as a fair criterion. The movements in most of the leading commodities continue somewhat restricted, owing to the demand being entirely local, while so far as values are concerned, there has been no change worthy of special notice.

ASHES—Firm and in fair demand but unchanged. Sales of 30 bbls common Soda at 6; 12 tons Refined ditto at 6¾, and 4 tons Pearls at 15.

APPLES—There is no improvement to note in the demand, and no falling off in the receipts. Small sales at $1.50 to $2 per bbl, as to quality.

GRAIN—Wheat is firm and unchanged; sale of 1 car Northwestern at $2.50. Oats in good supply and dull; may be quoted at 43 to 45 on track and in elevator. Sale of 900 bushels Shelled Corn at 78, and 1,000 bushels No. 1 Western Rye at 93c. No movement in Barley.

FLOUR—Is firm, with a fair jobbing demand, and we can report regular sales from store at $13 to $14.50 for Spring Wheat and $12.50 to $13 for Winter. Rye flour is dull at $6.25 to $6.50 per bbl, and Cornmeal is nominal at 95 to $1 per bush.

PROVISIONS—Market is quiet but steady at 17½@17¾c for Shoulders; 19½@20c for Ribbed Sides; 23 to 23½ for Plain Hams, and 25 to 26 for Sugar Cured Hams. Lard is dull but held firmly at 22@22½, and Mess Pork is quoted at $33.50.

MILL FEED—Sales in lots of 1 car Bran at $1.40. Seconds may be quoted at $1.20 to $1.40, and Middlings scarce and firm at $1.75 to $1.85, as to quality.

EGGS—In good demand, and fresh packed sell on arrival at 20. Supply light.

OIL—Sales No. 1 Lard at $1.75.

LIME—Sales at $2 per bbl.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, August 27, 1866.

CRUDE—The market for Crude was again firm and somewhat excited to-day, holders asking and endeavoring to establish a still further advance, and, indeed, they were partially successful, a couple of sales, 23 and 300 bbls, having been consumated at 17, bbls entered. It is but proper to remark, however, that the demand at the advance was very feeble, and those of our refiners who can possibly do so, seem determined not to pay the prices now demanded, feeling pretty confident that by holding off they will, sooner or later, be enabled to buy at a reduction. At 0il City, the crude market is also considerably excited, and telegrams to-day quote at $5.75 per barrel.

REFINED—There was but little inquiry, and bonded oil to-day, and while the market, apparently, was weaker and dull, prices, as compared with Saturday, remain unchanged. We can report a sale of 250 bbls, on the spot, at 42c free on board cars, and we understand that 45½ was offered for immediate delivery in Philadelphia. For future delivery, there is but little inquiry, and the impression prevails in some well informed circles, that the prices now prevailing, cannot long be maintained. There has been no foreign news (it is claimed) to justify the excitement we have just experienced, and it is asserted that a reaction and lower prices is almost sure to follow, and that, too, before long. In free oil there is next to nothing doing, the demand being reported almost entirely to supplying the immediate wants of the local trade.

ARRIVALS—As will be seen by the annexed report, the arrivals during the past forty-eight hours have been larger than usual.

Boston Wool Market.

BOSTON, August 25.—Sales of domestic for the week foot up some 750,000 lbs, at about the range quoted last week, or perhaps a shade lower on the average—say, 47@65c for fleece, and 25@65c for the various grades of pulled. Included are lots of low western fleece at 47@ 50c; medium and fine do 56@65c; Michigan at 58@60c; Ohio medium and fine at 58@62; do choice and extra at 62@65c; New York and Vermont at 55@60c; New Hampshire and Maine at 58@62c. A few very small lots of Ohio and Pennsylvania picklock have been taken at rates in accordance with the condition of the market. But fine wools are rather neglected, and the low and medium grades are most wanted and realize relatively better rates. In pulled there have been sales of supers at 55@56c, and extras at 63@65c, the outside rate for choice brands. In California and Texas wools, we hear of no sales. In foreign, also the transactions have been quite insignificant, as this description cannot compete with the corresponding grades of domestic at the present low prices for the latter.—*Bulletin.*

Chicago Market.

CHICAGO, Aug. 27.—Flour dull and declined 15@25c. Wheat opened unsettled, at a decline of 5@6c, at $1.84@1.85, and closed at $1.88@1.90 for No. 1; No. 2 declined 10@15c, opening at $1.65@1.65, and closed at $1.55@1.56. Corn dull and declined 1½@2c, at 53@56c for No. 1, and 52c for No. 2. Oats dull, at 28@29c for No. 1, and 25c for No. 2. Provisions nominal. Highwines quiet. Freights advanced 1½c. Receipts—7,000 bbls. flour; 62,000 bu. wheat; 335,000 bu. corn; 29,000 bu. oats. Shipments—14,000 bbls. flour; 29,000 bu. wheat; 15,000 bu. corn; 2,000 bu. oats.

MARKETS BY TELEGRAPH.

New York Stock and Money Market.

NEW YORK, August 27.—There is no change to notice in the Money market, and the demand from the Stock Exchange is readily met at 4@5 per cent. Prime discounts range from 5½ to 6¾. The Gold market was decidedly firmer towards the close of the day, and advanced to 148¾. The movement was caused solely by the manipulations of the Bull clique. The market for Foreign Exchange remains very dull. Bankers bills are quoted at 107, and short sight at 108. The disbursements at the Sub-Treasury on account of the temporary loan to-day reached nearly $14,000,000. At the last open Board the Stock market was quiet and firm. Considerable discussion is taking place in Wall street on the expediency of Mr. McCulloch's taking advantage of the present active demand for Government bonds to place a large lot of the Five Twenties on the market. The impression prevails very extensively that the high price for which Five-Twenties are selling is a direct benefit to the Treasury. At present, however, the speculators who hold the bonds are the persons who profit by the advance. If Mr. McCulloch were to sell Five-Twenties for cash, the Treasury would get the benefit of the large premium which these bonds now command. It is urged that, in view of these facts, a considerable part of the loan should shortly be paid from the Treasury at the current market price; and the law allows such an issue of gold-bearing bonds to an amount not exceeding the whole of the temporary loan and certificates of indebtedness which shall have been paid off at the date of issue.

After the Board, prices were steady and slightly better in some cases. The market for Petroleum and Mining shares was quiet and generally steady. Petroleum Stocks—Bennehoff, 69; Pithole Creek, 100; Rouse Hill Run, 35. Express Stocks—United States, 111. Mining Stocks—Benton, 150; Consolidated Gregory, 1,050; Downieville, 125; Holman Gold, 40; Lebanberg, 50; New York Gold, 145; Rocky Mountain, 550.

Money easy, at 4@5 per cent, for Call Loans. Sterling quiet, at 109¼@107. Gold irregular and unsettled, opening at 146¾ and closing at 148¾.

Governments have advanced from ⅝ to 1⅜. Freights to Liverpool dull.

The following is the weekly bank statement: Loans $265,901,005, increase $394,914; Specie $8,884,077, decrease $661,436; Circulation $27,305,464, increase $161,560; Legan Tender $86,285,185, increase $1,483,412; Deposits $215,119,456, increase $3,998,874.

The *Commercial's* money article says: For the use of money on call there is but little inquiry, the rates continue at 5@6 per cent., strong parties finding no difficulty in supplying themselves at the lower rate, while lenders who have the reputation of not calling in their funds without good cause need upward changes in the condition of the market find no difficulty in employing their means at 5. Of paper the supply offering is not large, and the choice of first class names may be noticed at 5@6 per cent. for short and long dates.

There is no movement of any moment in foreign exchange this morning, and rates are nominally about the same as at the close of last week. The asking range for banker's bills this morning is 108¾@107 for 60 days, and 107¾@108⅛ for short sight, but we hear of no transactions in the stock market. The feature of the day was the great activity in Government security, and an important advance in the prices. The demand from abroad for the 5-20s is large, and they are very scarce, so that there is much difficulty in filling the orders received by some of our banking houses on account of whom we have heard of some heavy transactions by private purchase this morning in addition to the sales made at the board.

In railroad shares the market was inactive, and prices ruled somewhat irregular, but with some exceptions higher. Sterling, 60; Reading, 93¾; Erie, 73½; New York Central, 95¾; Cleveland and Rock Island, 109¾; Western Union Telegraph, 57¼; Ohio and Mississippi Certificates, 28¾; 6s, 1881, regular, 112; 5-20s Coupons, 1862, 113¾; 5-20 Coupons, 1865, 109; 7-30s first series, 105⅝; do. 2d, 106; do. 3d, 106; Alton and T. H. 2d, Alton and T. H. Preferred, 71¾; Milwaukee and Prairie du Chien, preferred, 58.

There is no change in the money market. Gold is more active and there is more disposition to buy. Railroad shares are strong, Rock Island being chiefly in demand.

At the four o'clock open board the following were the principal sales: Ohio and Mississippi Certificates, 29½; Erie, 73¾; Michigan Southern and Northern Indiana, 85¾; Chicago and Northwestern, preferred, 68¾; Illinois Central, ex. div., 124; Chicago and Northwestern, 57¼; Chicago, Rock Island and Pacific, 100. Gold closed at 148¾.

The *Post's* money article says: Gold is more scarce and is lending at 1¾ per cent. premium. The loan market is easy but unsettled at 5 per cent, with exceptionable transactions at lower rates. The Stock market is unsettled and irregular. Railroad shares are firmer without material activity. After the Board New York Central sold at 1,02⅝; Erie, 74; Hudson River, 1,18; Michigan Central, 1,13.

New York Market.

NEW YORK, August 27.—Cotton quiet and unchanged at 33@34c for middling uplands. Boston Iron Market.

BOSTON, August 25.—The market for pig iron is quiet and without notable change. There is a steady demand for small lots, for immediate use, at about previous rates for all grades. The domestic made article is in small stock, and Pennsylvania iron masters are still ordered ahead. Late accounts from the point of production note a more active demand and considerable sales for future delivery. Scotch pig is in moderate request, and importers are disposed to meet the market quite freely.

Scotch pig is quiet, with sales of No. 1, in small lots, at 50@51c per ton, for the various standard brands. American is in moderate demand and firm, with sales in lots as wanted for use at $48@52 per ton, for the different manufactures. RIVER NEWS.

The river is again receding at this point, with scant three feet in the channel by the piet marks last evening. The weather yesterday was cloudy and warm with slight indications of more rain.

The Forest City, from Parkersburg, and the Ida Rees, from Glass House, are the only arrivals we have to report. The former was considerably behind time, having been detained several hours on Sunday night by fog. The Rees has been laid up at Glass House for some time past waiting for a rise.

The New State left for Parkersburg yesterday forenoon and the Forest City left for the same point last evening.

A rumor has been current for some days past that the Kenton was laid up at the foot at Glass House, and that there had been quite a number of cases of cholera on board. We have good authority for saying that there is no truth in the report, as we learn that she is quietly laying up at Rochester, Beaver Co.

The hull of Capt. Hare's new boat has arrived from Freedom, where it was built, and is now moored along side the Monongahela Wharf.

We clip the following items from our St. Louis exchanges of Saturday.

The Southerner was sold to Memphis parties for $20,000. The John D. Perry was sold to Louisa Byers, of Memphis, for $8000. The Perry was built in March, 1853, and cost $43,000. John C. Sinnott, of New Orleans, was the purchaser here of one eighth of the Magenta, for $5,000. To-day at four p. m. positively, the J. R. Gilmore will leave for the Ohio river, taking freights for all points to Pittsburgh. She is commanded by R. S. Yerkes, and John Eyart has charge of the office.....Ohio river steamboatmen are now supplying their boats with drinking water that is brought through the boilers, completely desalinated, and taken from the steampipes condensed. It is therefore wholesome and good to drink after the ice has been thrown in.....

.....Jas. D. Leonard, mate of the steamer Belena Rock, died while the boat was lying at Smithland. His remains were interred a short distance above Metropolis.....The Lotus No. 2 retires from the Illinois river trade.

A terrible storm prevailed along the Mississippi river near Helena on last Sunday, felling trees and doing considerable damage. The steamer Commercial was blown on the Helena bar, and came near losing her cabin, which was raised four inches. She was pulled off again by the Des Arc.

Mr. M. W. Cottrill, clerk of the steamer Mississippi, makes the following statement in regard to the finding of Capt. Hurd $100 for landing a cholera corpse at Cairo. In that case we should think the Adams Express Company should pay the fine:

On the last trip down of that steamer, the steward of the boat sickened and died of cholera. He being buried on Ashley Able's towhead, a short distance above Cairo, and while on the bar the corpse was taken ashore, as the Captain thought, for burial. Instead of inside filling the coffin was taken full of lime, and placed in a deodorized case, and application made to the Express company to have it forwarded to Cincinnati. The company refused to do so unless the physician who attended the case would certify the party had not died of cholera. The certificate was not forthcoming, and the corpse was ordered to be buried. Capt. Hurd knew nothing of the transaction until summoned to appear before Esquire Oshaunessey and pay the fine.

The St. Louis *Republican* says Capt. Pogan, with the submarine diving outfit, has gone to raise the wreck of the Missouri, sunk in the lower Mississippi. We guess he will have a long hunt in those waters to find the wreck.

The Cairo *Democrat* of yesterday says: Mrs. Capt. Bowman, of the Naugatuck, came near being burned to death yesterday. While in conversation with some friends on the cabin guards, her dress was set on fire by a spark from one of the chimneys. Luckily, the flames were extinguished before she was seriously injured.

We learn that the strike among the coal-diggers at Duncan's Island, Big Muddy, and Cloverport still continues, and the men have, some time since, quit work. They demand four cents per bushel and the proprietors refuse to pay more than three-cents. Boats are even coal enough there for the use of passing boats.

The Porter of the Lorena, whose death from cholera we have already noticed, was named William Robinson. He was formerly employed on the Sherman, and leaves a wife and family residing at Metropolis, Ill.
